8	Washer Ø8/20 SFS3738	OT.04.03.030	8
9	Hose Ø12/18	03.13602	1
10	Cable tie 4,7x363mm	PM.11.00.006	1

FITTING INSTRUCTIONS

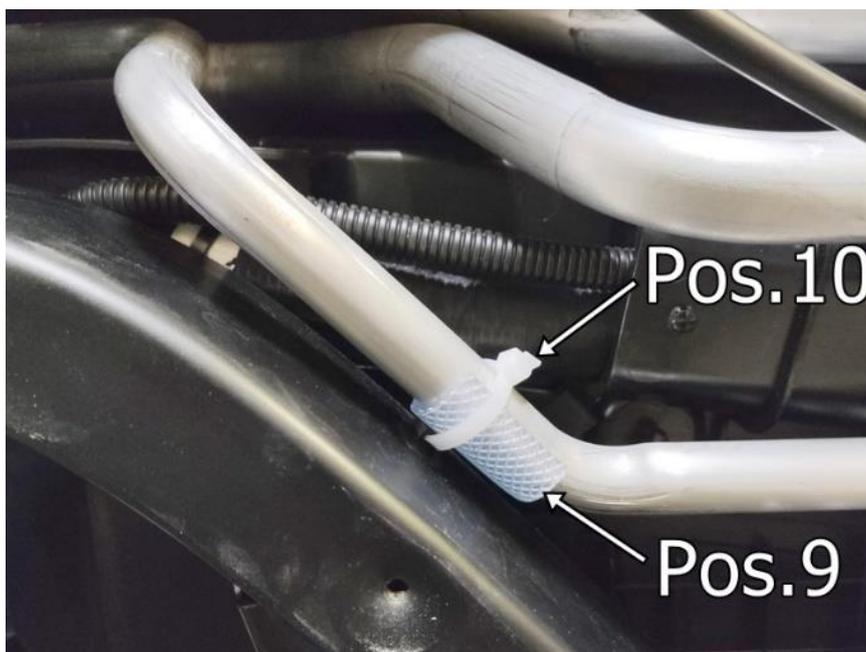

Step 1

Install adapter to ATV. If you are using adapter with Polaris original plastic protectors, then drill holes in the plastic where bolts should go and use Pos.6 (M8x100) bolts. If fitting with IronBaltic skid plate, use Pos.7 (M8x110) bolts. NB! Make sure that near the brake line the bolt goes between the brake line and frame!

NB!

If you are fitting adapter to Ranger 570 Nordic Pro and/or your UTV has tube shown on the picture, where adapter installation bolt should go, then remove original cable tie holding the tube. Place piece of hose (Pos.9) supplied with this kit over the tube, so that the tube would rise a little bit away from the frame and then secure it with new cable tie (Pos.10) supplied with this kit.
