# FITTING INSTRUCTIONS

**Step 1** Install fairlead and winch to adapter.

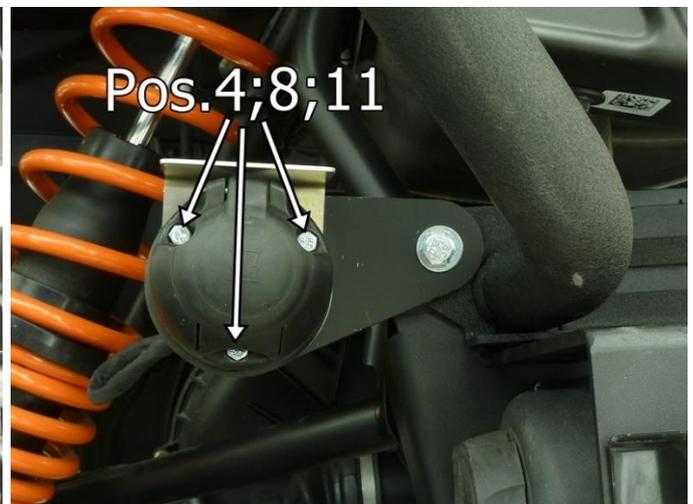

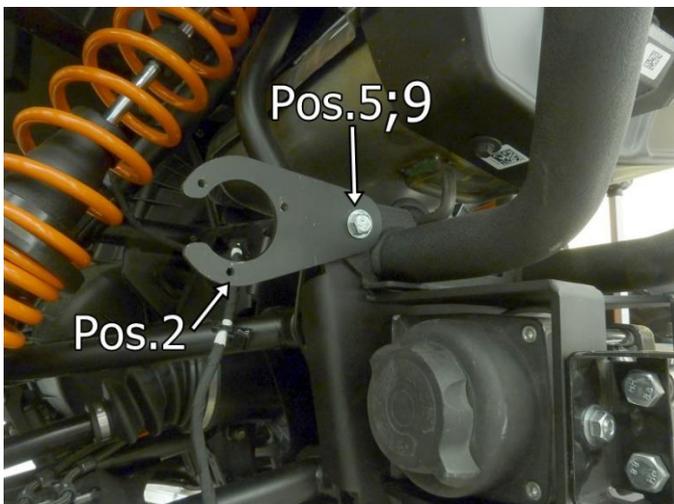

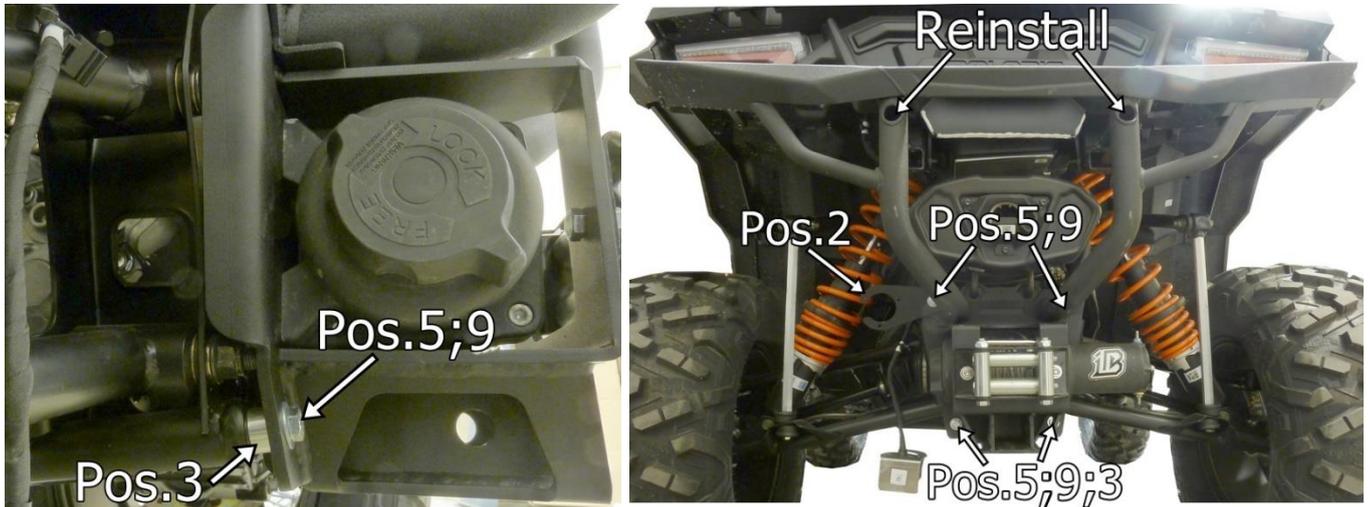

**Step 2** Remove original hitch receiver, trailer connector and rear bumper.

### Step 3

Install the winch adapter and trailer connector plate to the ATV. Distance bush (Pos.3) goes between adapter and ATV. After that install trailer connector to holder. When fitting adapter with IronBaltic skid plate, then do not use Pos.9 washers and Pos.6 bolts, instead use 14.503 washers supplied with skid plate and Pos.7(M8x90) bolts. NB! Bracket 02.25917 that came with skid plate kit, must be removed and is replaced with this winch mount, that has threaded holes for mounting.
